SKILLS

- HTML
- CSS
- BOOTSTRAP
- JAVASCRIPT
- REACT
- MONGODB
- EXPRESS
- NODE
- ANGULAR
- TYPESCRIPT
- LARAVEL
- PHP
- SQL
- TAILWIND CSS

- **BOOK REVIEW APPLICATION**

Engineered a robust database solution utilizing MongoDB to enhance data retrieval efficiency by 30%, improving overall performance in response times for users interacting with both frontend and backend components.

- **E-COMMERCE APPLICATION**

Built a React.js application utilizing React Hooks, React Router, and Axios for efficient front-end management. Implemented JSON-server as a mock backend to perform basic CRUD operations.

- **LIBRARY MANAGEMENT SYSTEM**

A two-module MERN application for book reservations, with React.js for the front-end and Node.js/Express for the back-end. Implemented MongoDB as the database, supporting separate modules for Admin and Students.

- **ECOMMERCE APPLICATION**

MERN e-commerce application with React.js front-end and Node.js/Express back-end, using MongoDB for data storage. Integrated Stripe for secure payment processing and Mail.js for automated emails, enabling seamless online shopping functionality.

- **FLIPKART CLONE APPLICATION**

Built a Flipkart clone with React.js, replicating core e-commerce functionalities for a seamless user shopping experience.
